Chronicles India - The Organisers

The rich history, heritage and millions of mythological tales of India have made the world look back us with lot of jealous. Being the pride of our country, Chronicles India interested to look at the ways and means to get this across to as many people as possible. To begin with, Chronicles India started its journey with the Pallavas and looking to reach each and every historically significant corner of India.

We being a tech savvy organization developed the vision of using technology to convey the hidden messages that our history has to offer, this one day education tour package for schools has been designed. At Chronicles India we offer this school trip that is affordable, educational, enjoyable and of course memorable!

Objective of the tour

To introduce the rich history and the value of Indian arts to the next generation and to make every student involved to get the most out of their school tour, we wish to provide a practical lab for "Art and History" like any other subject such as Science and Maths,...as Albert Einstein quoted, "**Example isn't another way to teach, It is the only way to teach**". This is to give a powerful learning experience which will be memorable and meaningful.

Why Mahabalipuram?

Mamallapuram is one of the history's intriguing enigmas. The ancient Mamallapuram, commonly known as Mahabalipuram, was the flourishing port town of the Pallava rulers of south India who chiselled in stone, a fabulous "open-air museum" of sculpture under the vault of a burning sky.

Recognized as one among the few UNESCO WORLD HERITAGE SITES and also this is the only place in the whole of India declared by UNESCO as WORLD CRAFT CITY for sculptures.

Located about 60 kms from Chennai, Mahabalipuram the coastal town is a heavenly abode for the students of history. Geographically located Mahabalipuram is the best place for students especially from the nearby districts like Chennai, Chengalpattu, Kanchipuram and the State of Pondicherry to experience the Art & History first hand. The sculptures, temples and the shore line are in fact the best teachers of History and because of it's logistical convenience it just takes a one day trip for a student to go back a few thousand years.

Sculpting Studio Visit

Upon arrival students will visit Creative Sculptors, a leading Art Studio in Mamallapuram with Live demonstration of sculpting technique using traditional tools & latest technologies in association with Government College of Architecture and Sculpture. There can be hands on session for few interested participants. This gives an immense understanding of the sculpting art and make them realise how much concentration and tireless effort involved.

Next visit will be Chronicles India's 7DX Theatre, acknowledged and appreciated as a very Educative & Magnificent show by the UNESCO team.

Pallava Dynasty **7DX** MOVIE

A concept that presents to the world the age old heritage and culture in an enthralling way catering to all age groups especially students. This is one of the most easiest ways to learn our traditions and in a way that no student can afford to forget. With the technology that transports a student into the age of the Pallavas, he/she is actually a part of that period and will learn the significance of the Pallava reign and their contribution to our history without flipping a page or breaking a sweat. It is like learning while on a picnic that all students are bound to enjoy and sub consciously learn. Is there a better way to learn history? we don't think so...

Mahabalipuram Guided Tour

A magnificent combination of artistic glamour and historical merit, Mamallapuram has plenty of unique monuments which grace the town for centuries.

After the movie, the site visit is organised where our professional guides will take the students to the important sites of Mahabalipuram so that they can easily relate to what they have seen in the movie, touch.. feel.. & admire the sculptures, enjoy the architecture along with the experience of taking photos. At the end of the memorable and meaningful day, students will be presented with a certificate of participation and also with a memento to the participating school.

*** Assistance will be provided for Transportation, Food / Beverages and Professional group photos upon request.**

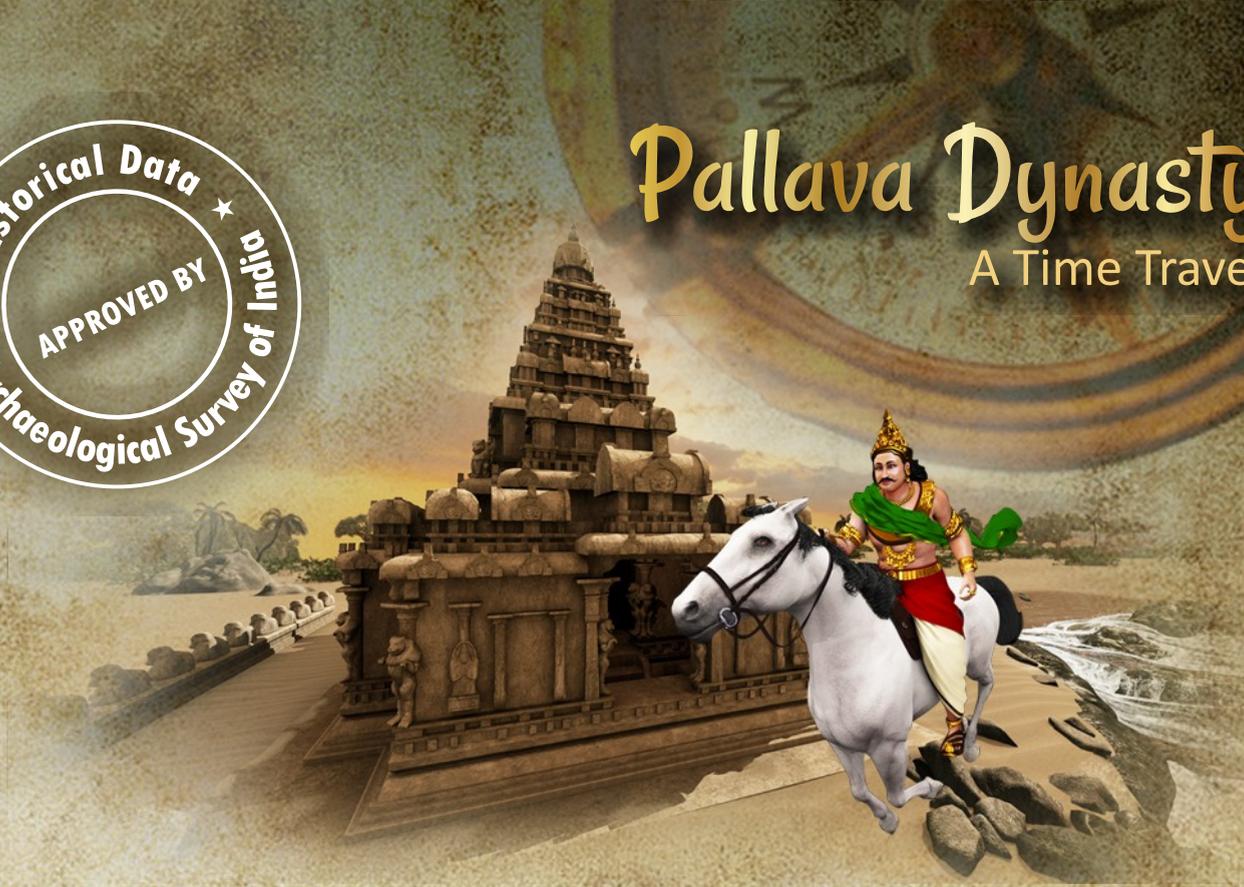

7DX Movie

For the First Time in India

Pallava Dynasty

A Time Travel

Synopsis

A time travel 7DX experience which is at par excellence that takes you on a twisting and turning journey of the Pallava Dynasty that ruled this land from 600 to 750 AD with Kancheepuram as the capital city. Authentic rich historical information is presented in the most interesting way with the perfect mix of the best of the breed technology and years and years of research by renowned historians.

The 20 minute feature not only revolves around Mahabalipuram but also traces the path of the Pallavas from Mamandur to Kancheepuram covering the early scriptures, marvellous temples and astounding time defying sculptures.

The immersive movie experience is not just loaded with tons of visual effects, but also uses traditional art forms such as "Thol Paavai Koothu" in a digital avatar for the first time ever in the world to convey the Indian Myths. It elucidates how mythology relates to the sculptures of Mahabalipuram in an educative yet entertaining way.

On popular demand, we have also included a 10 minute bonus content of another ride called "Fio" which changes you into a small girl from the future going on an adrenaline filled thriller ride. We are bent on covering the past, the present and the future in an enjoyable way for the student community exclusively.

Testimonials

V. good innovation started. Best of luck.

The depiction of historic dimensions is very well done.

It is highly appreciable the way the movie had taken us to the very period of Pallava Dynasty and to the artistic splendour on stone. The movie had become such a space sand platform for all of us experience and appreciate the same.

The logical and scientifically sound presentation of history but in a simplistic way, Will be appreciated by all ages.

Nice effort, All the best.

*We wondered how could a documentary be filmed this much interesting. It has Created an illusion as if we have travelled back 1200 years and living in the wonderful Pallava Dynasty through such a realistic 7D technology.

*Watching Pallava Dynasty a time travel in 7DX Technology transforms the movie watching experience to the next dimension. It feels like the audience virtually got transported to the Pallava era.

*Even the foreign tourists of mamallapuram feel "WOW.." after visiting the 7DX theatre. This movie deserves the credit of India's first archaeological movie produced in 7DX Technology.
